

# MOBILE JUSTICE CA

EMPOWERED BY THE ACLU OF CALIFORNIA

You have the right to film law enforcement. **MOBILE JUSTICE CA**, a smartphone application empowered by the ACLU of California, makes it easier for community members to hold law enforcement agencies accountable for their actions.

DOWNLOAD FOR FREE & LEARN MORE: [MOBILEJUSTICECA.ORG](http://MOBILEJUSTICECA.ORG)

## RECORD

Film an incident by hitting RECORD, then simply tap the screen to stop. A copy of the incident will be automatically sent to the ACLU and saved to your Camera Roll.

After a recording ends, you will be prompted to fill out a short incident report. Bypass the incident report by simply pressing cancel; however, we encourage you to fill it out so we can learn more about what you saw.

Use the TEST button to ensure your camera is working without sending a video to the ACLU.

## REPORT

Submit an incident report directly to the ACLU about an incident with law enforcement – or any other type of interaction with a government official – even if it was not recorded.

## WITNESS

Enable push notifications in the SETTINGS tab, then hit WITNESS to get timely alerts when other users are recording a nearby incident. This allows communities to monitor and track law enforcement activity.

## ALERTS

Enable push notifications and stay up-to-date on ACLU issues, campaigns and upcoming events in your community.

## RIGHTS

Know your rights at the touch of a button, covering not only encounters with law enforcement but also everything from students' rights and health rights to free speech and the Bill of Rights itself.
